Metis

MET-EXIT-W-EM

DESCRIPTION

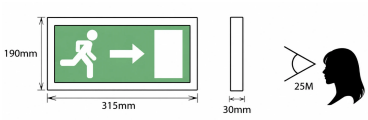

The Metis LED exit sign is an attractive, specifiable product that offers long life and low energy with excellent performance. These very slim wall-mounted luminaires feature a welded steel housing providing a ‘picture frame’ appearance around the bright and evenly illuminated safety sign panel. These exit sign luminaires provide smaller physical dimensions than conventional fluorescent exit signs, making installations more attractive. However, the Metis LED exit signs still provide a useful 25 metre viewing distance. The back plate mounts on the wall using simple keyhole slots or via the central BESA entry. The front cover is supplied in textured white as standard, and a textured silver grey finish is also available. Metis LED exit signs are available with DALI and self-test.
