

Wireless connectivity

HubSense® – qualified Bluetooth mesh

“The simpler system to simplify the lighting projects”

Dennis Fullin – PM

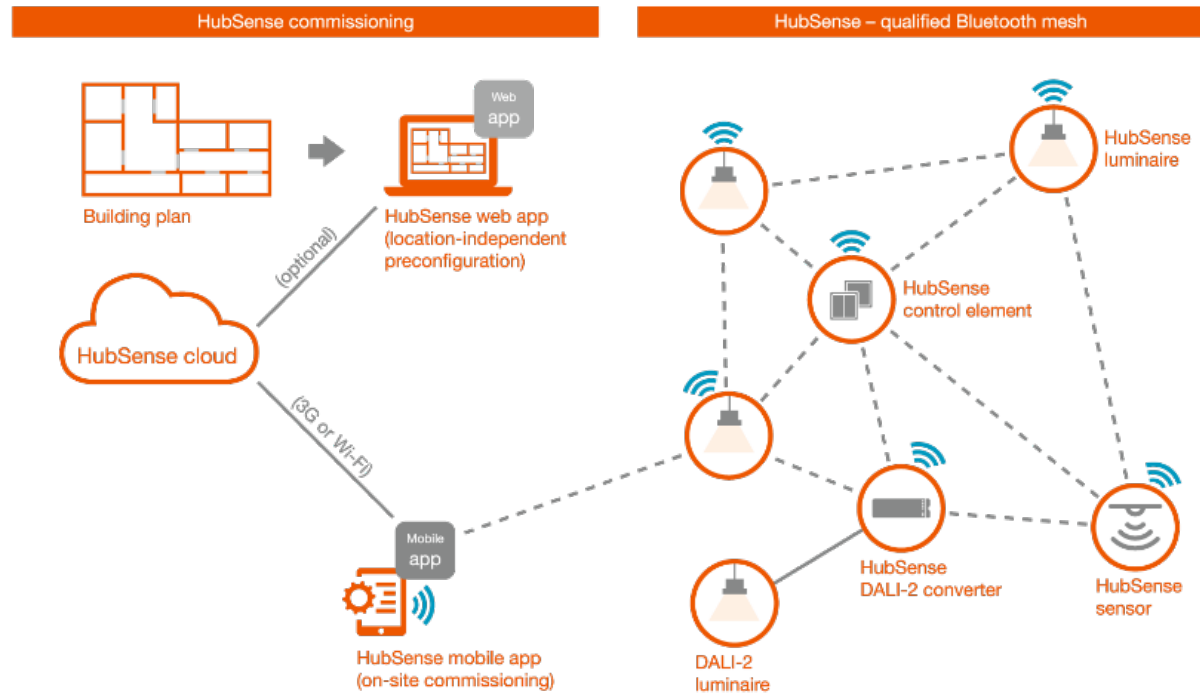

Building a Brighter Future

20-10-2023 | CNT

Inventronics HubSense®

Your Host

“HubSense® by Inventronics is a wireless ecosystem based on Bluetooth mesh to simplify the installation and minimize the retrofit effort”

Inventronics HubSense®

Qualified Bluetooth® mesh: a rational choice

Reason behind a wise decision

Why standardization?

Interchangeability

higher productivity and lower manufacturing costs.

Efficiency

Standardization often includes quality assurance measure and committee offer new features constantly

Availability

minor capital on stock, shorter led time for luminaire manufacturer.

Why qualified Bluetooth® mesh?

Wireless

No installation of control cable nor masonry works.

Bluetooth mesh integrates the BLE smart devices used for commissioning

Energy saving

easy installation of lighting and presence sensors

Secure

robust by definition and certified

Inventronics HubSense®

European Market for Wireless Retrofit

Unlock the potential of additional energy savings and well being for existing buildings

Commercial building area
Europe > 6,2 billion m²

- New buildings ~ 1 %
- About 80% are light dimmable installation

- Renovated buildings ~ 4 %
- **Only 20 % are light dimmable installation**

Source BPIE survey

Inventronics HubSense®

Benefits for all the players in the value chain

Facility Manager

Savings by light / vacancy sensing

Robust and secure communication

Short downtime during refurbishment

Gradual updates / refurbishment possible

Easy to re-adapt to new layouts

Luminaires Manufacturer

New high-value Luminaire to sell

New opportunities because wireless

Sustainable thanks to open standard

Pre-setting in factory possible

One shop stop from Inventronics

Installer

Fast installation and no masonry works

No Gateway needed

Multi commissioning possible (short time)

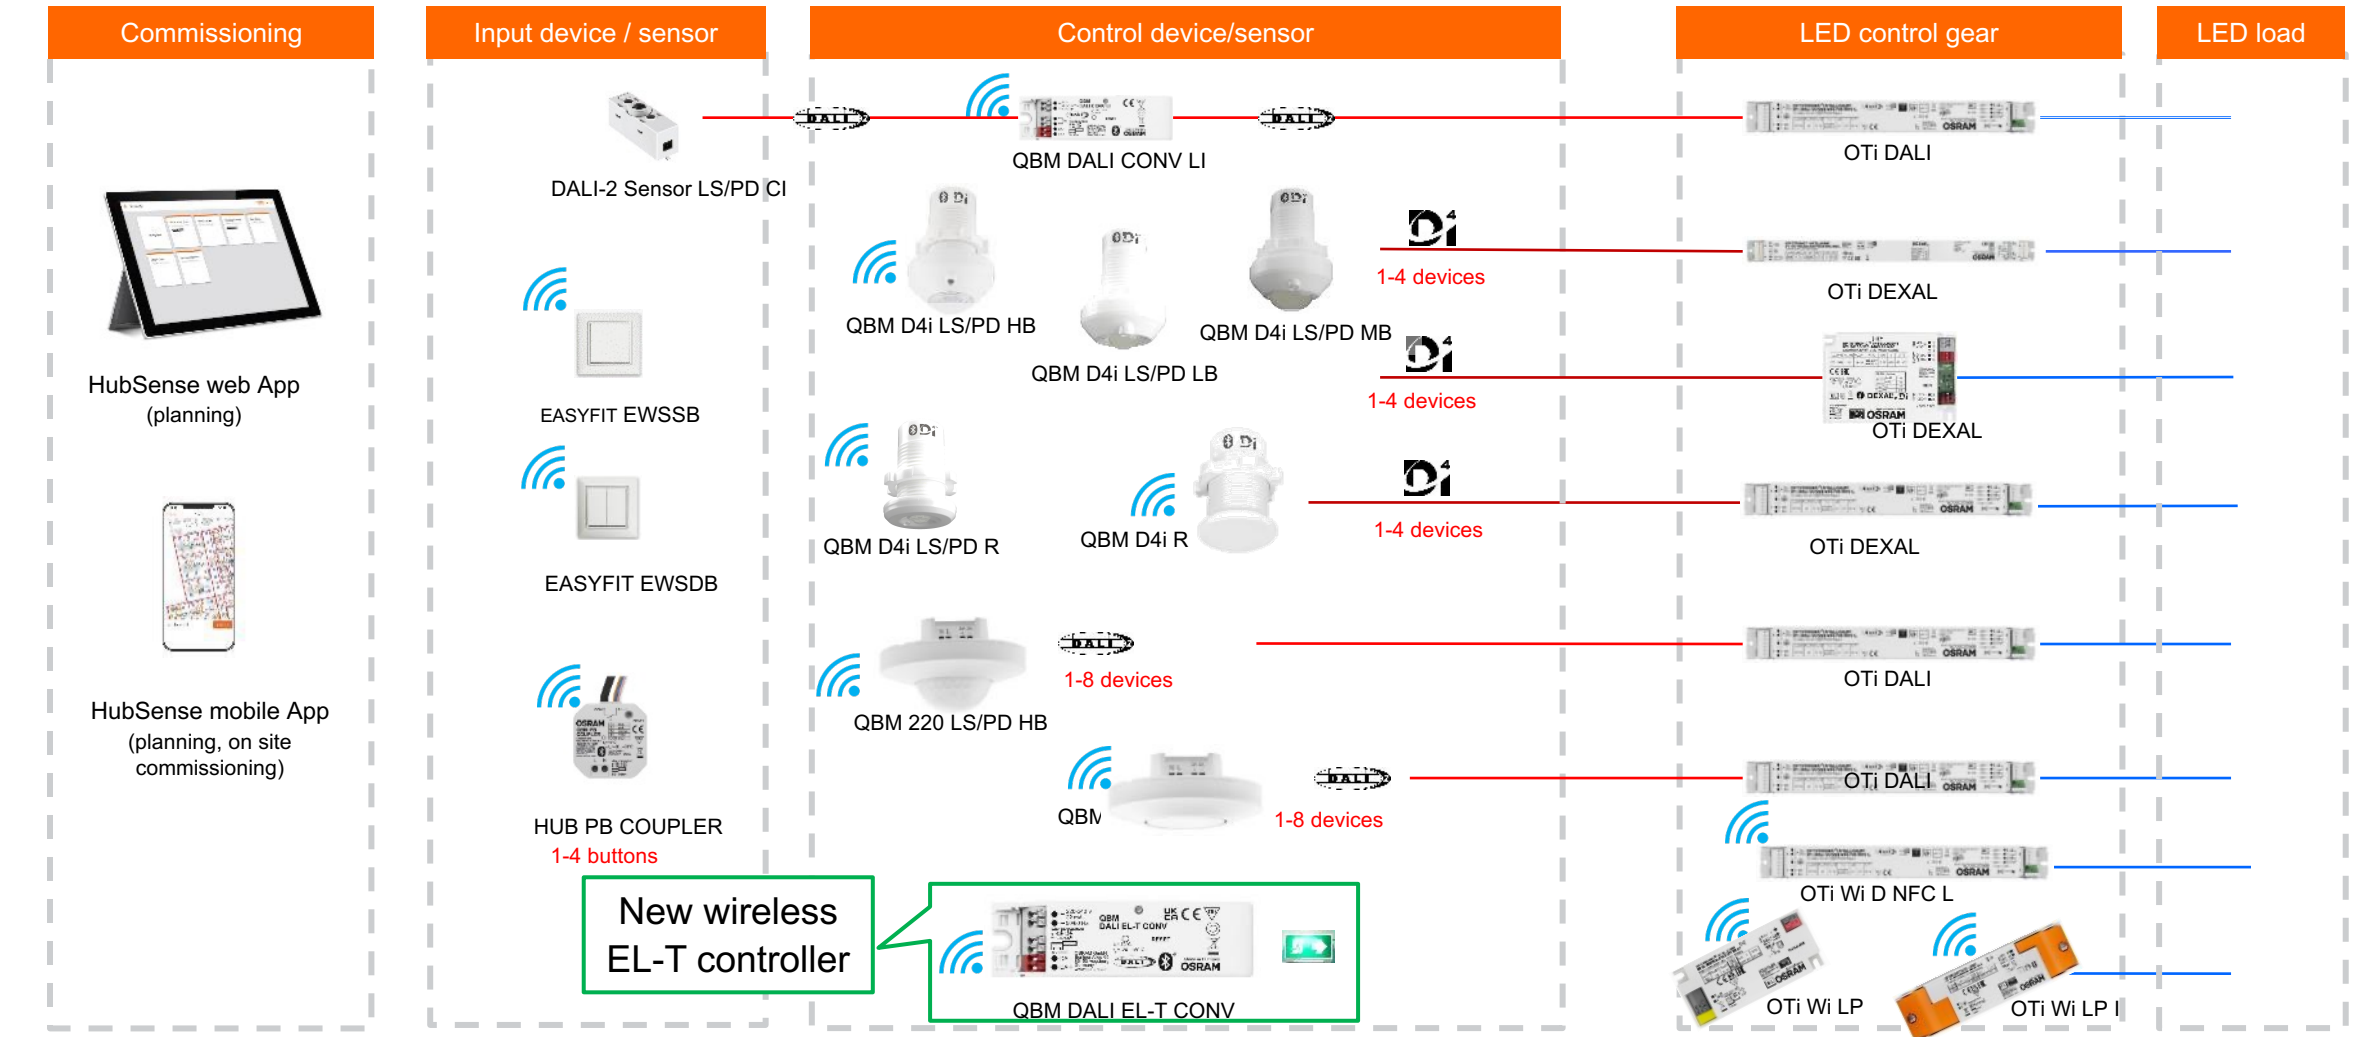

Pre-configuration service possible

Real scalable solution

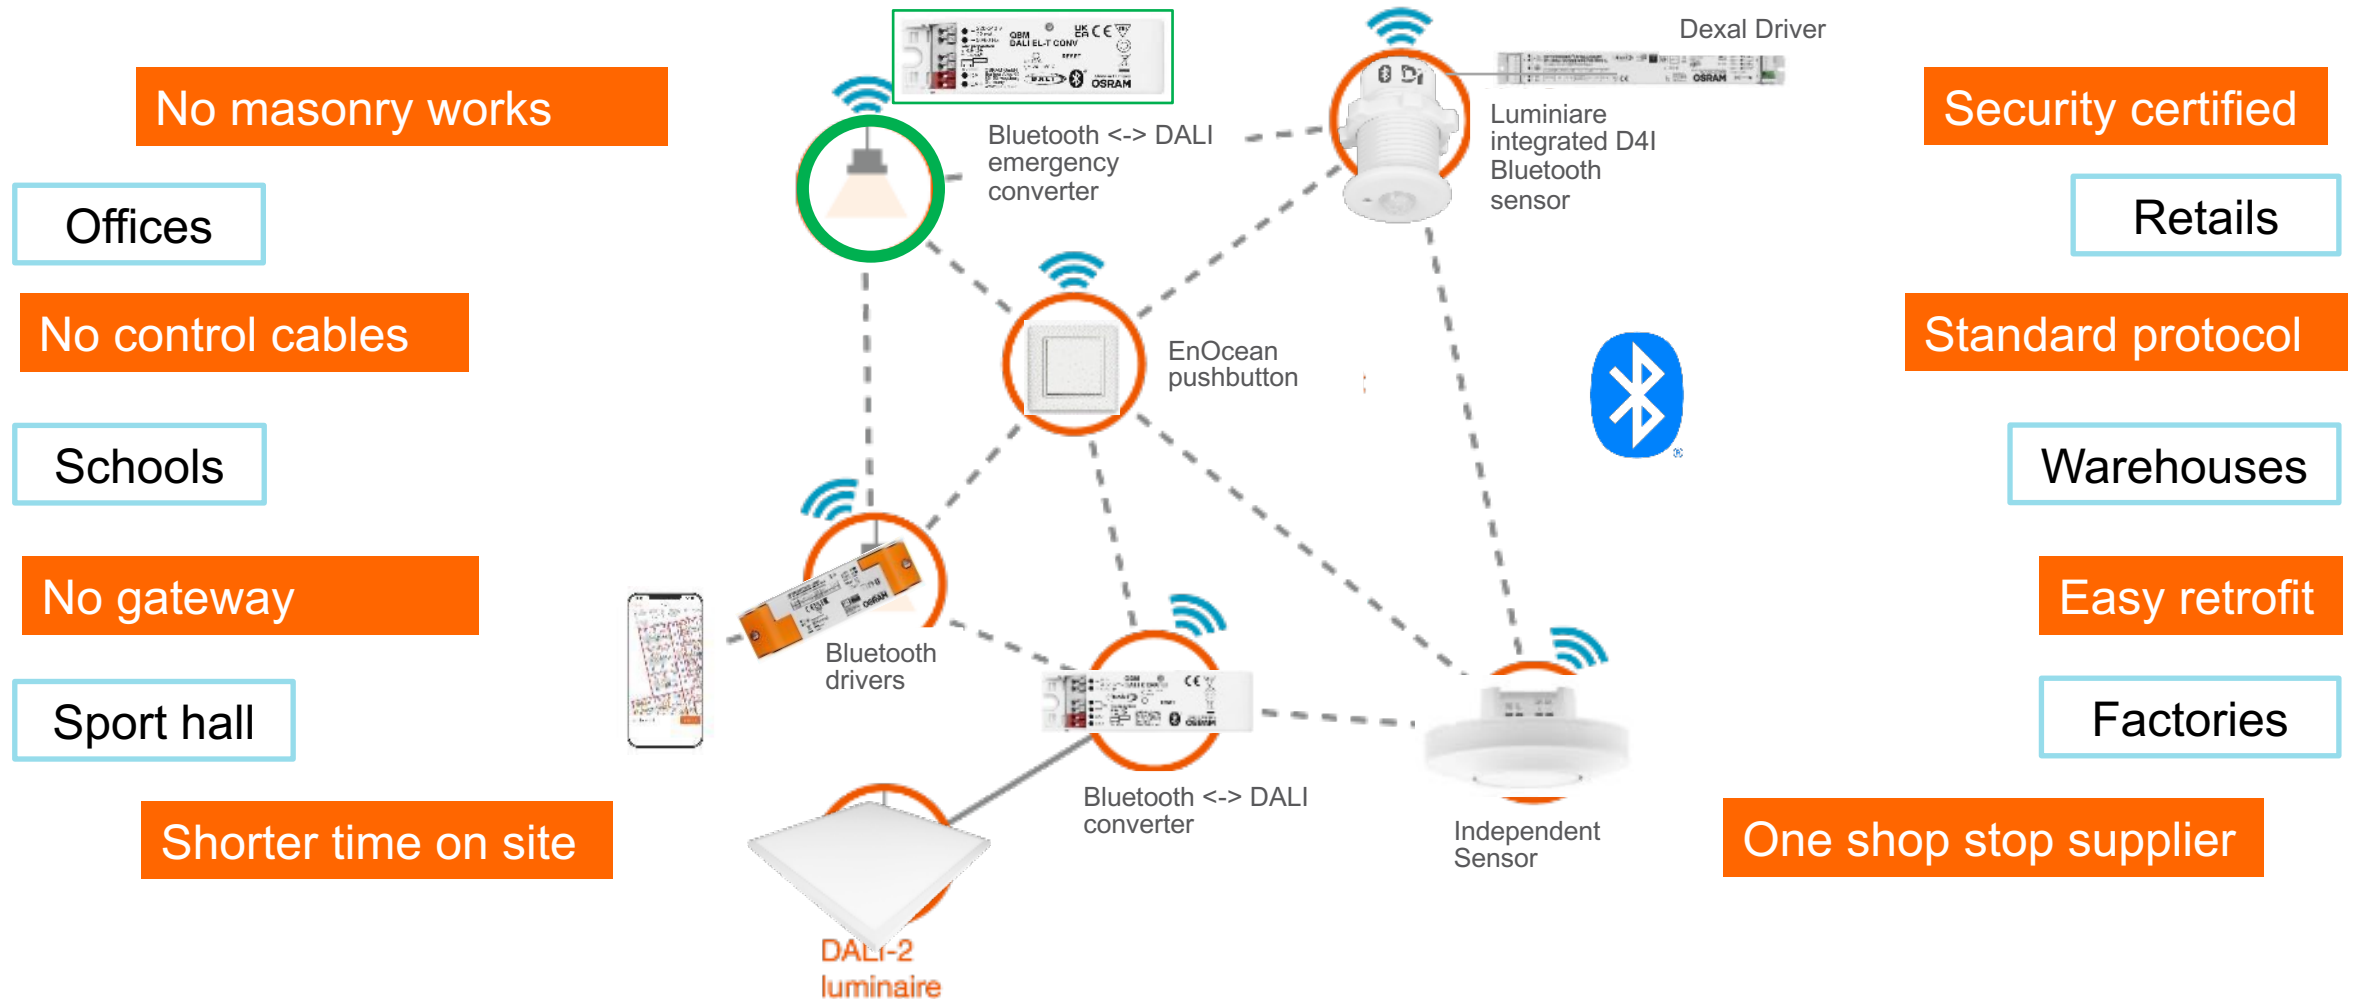

HubSense®

QBM Product Overview – base portfolio

HubSense – one ecosystem qualified Bluetooth mesh components

HubSense – one ecosystem a wide basket of components – Summary

HubSense: USP

The portfolio of HubSense is quite large:

- Sensors for luminaire integration and independent
- Converter for DALI-2 integration
- LED drivers SELV (compact) and non-isolated (linear)
- Converter for Emergency Luminaires
- Push buttons & EnOcean

It is possible to cover already:

- Offices
- Schools
- Warehouses
- Sport hall
- Indoor Parking
- Retails
- Factories

Benefit of a wireless installation

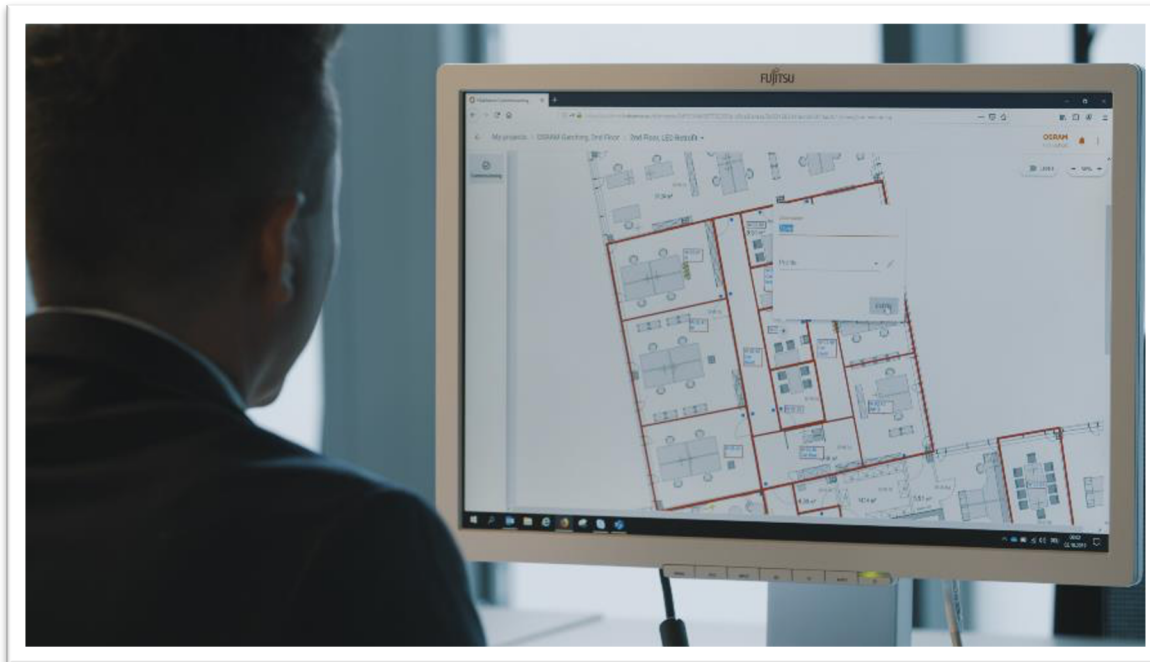

- No masonry works
- No control cable and its cost
- Easy retrofit (1-2-1) and working at stages
- Shorter time on site -> faster re-start of activity

Benefit of qualified Bluetooth mesh by Inventronics

- No gateway
- Standard protocol (mandatory on public spaces)
- Security certified from 3rd party: **ioXT** & **psa**
- One shop stop supplier

Reason to believe -> installation in our own offices

Upgrade the lighting in the office building in OSRAM Munich - Garching in terms of energy efficiency, lighting comfort and flexibility,

1 Planning

Thanks to reliable Bluetooth® Mesh wireless technology, the scalable retrofit solution can do without control lines and gateways, and can also be planned and pre-commissioned from anywhere using the web app. Information are pre-stored in the cloud

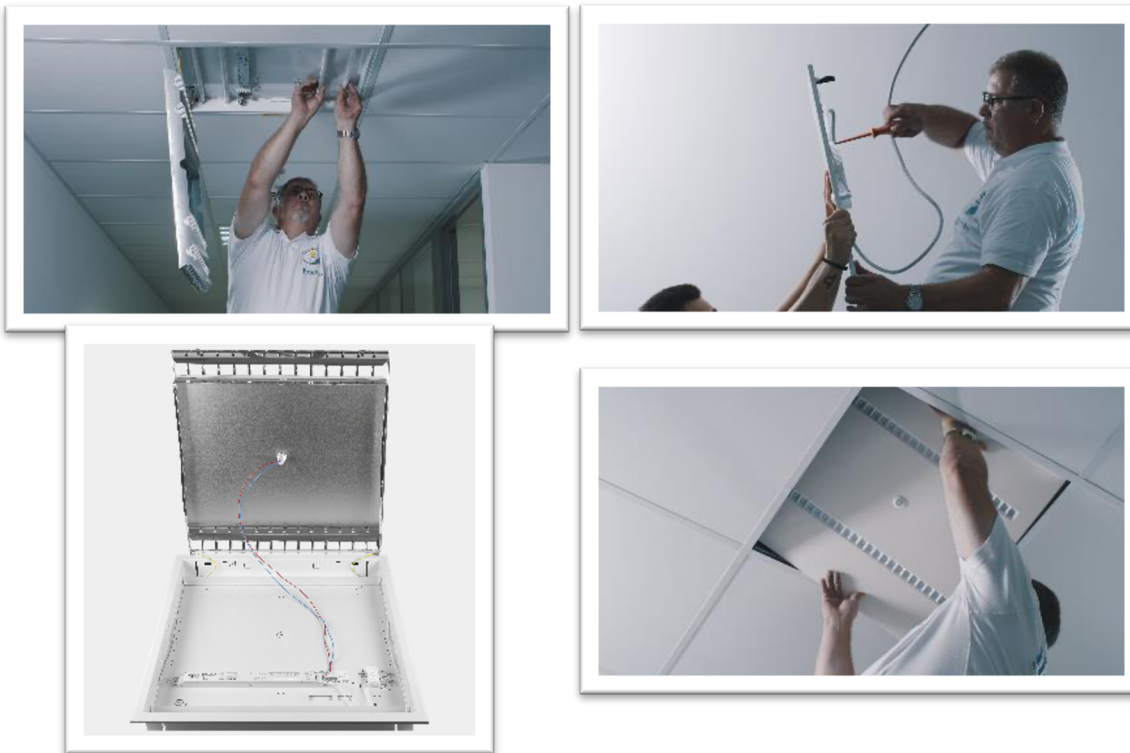

Reason to believe: installation in our own offices

Upgrade the lighting in the office building in OSRAM Munich - Garching in terms of energy efficiency, lighting comfort and flexibility,

2 Installation

the existing infrastructure could not only be used without costly and time-consuming rewiring, but there was also no need for gateways or other complex IT elements.

For the installers, the system is particularly attractive because we can use it to easily retrofit existing office luminaires,

OSRAM HubSense®

new QBM D4I Dongle with Daylight / Presence Sensor

QBM D4I LS/PD R

+

IP 65

+

Light Shield

Product Features

- „Works with OSRAM Hubsense®“
- Qualified Bluetooth® Mesh Wireless Sensor Module
- „Works with OSRAM DEXAL“ Driver
- Wireless Sensor Module for office luminaire
- Including Daylight and Presence/Motion Detection

Main Features

Input Voltage	Powered by DEXAL Bus Power Supply
Input Current	10 mA 150 mW
Max. of drivers	4 DEXAL or 4 DALI driver plus DALI Bus Power supply
Wireless range (typ)	10 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDB)
Dimension	1/2" knockout, h = 36 mm (43 mm)
Detection Range	Ø 8 m (major) Ø 3 m (minor)
Detection Height	< 5 m
Ambient Light Sensor	Yes

¹⁾ Technology Partner: SILVAIR

OSRAM HubSense® devices in the linear system

1 x **QBM D4i LS/PD LI R**

Every 4 x **OTI DX IND...**

Or

Product Features

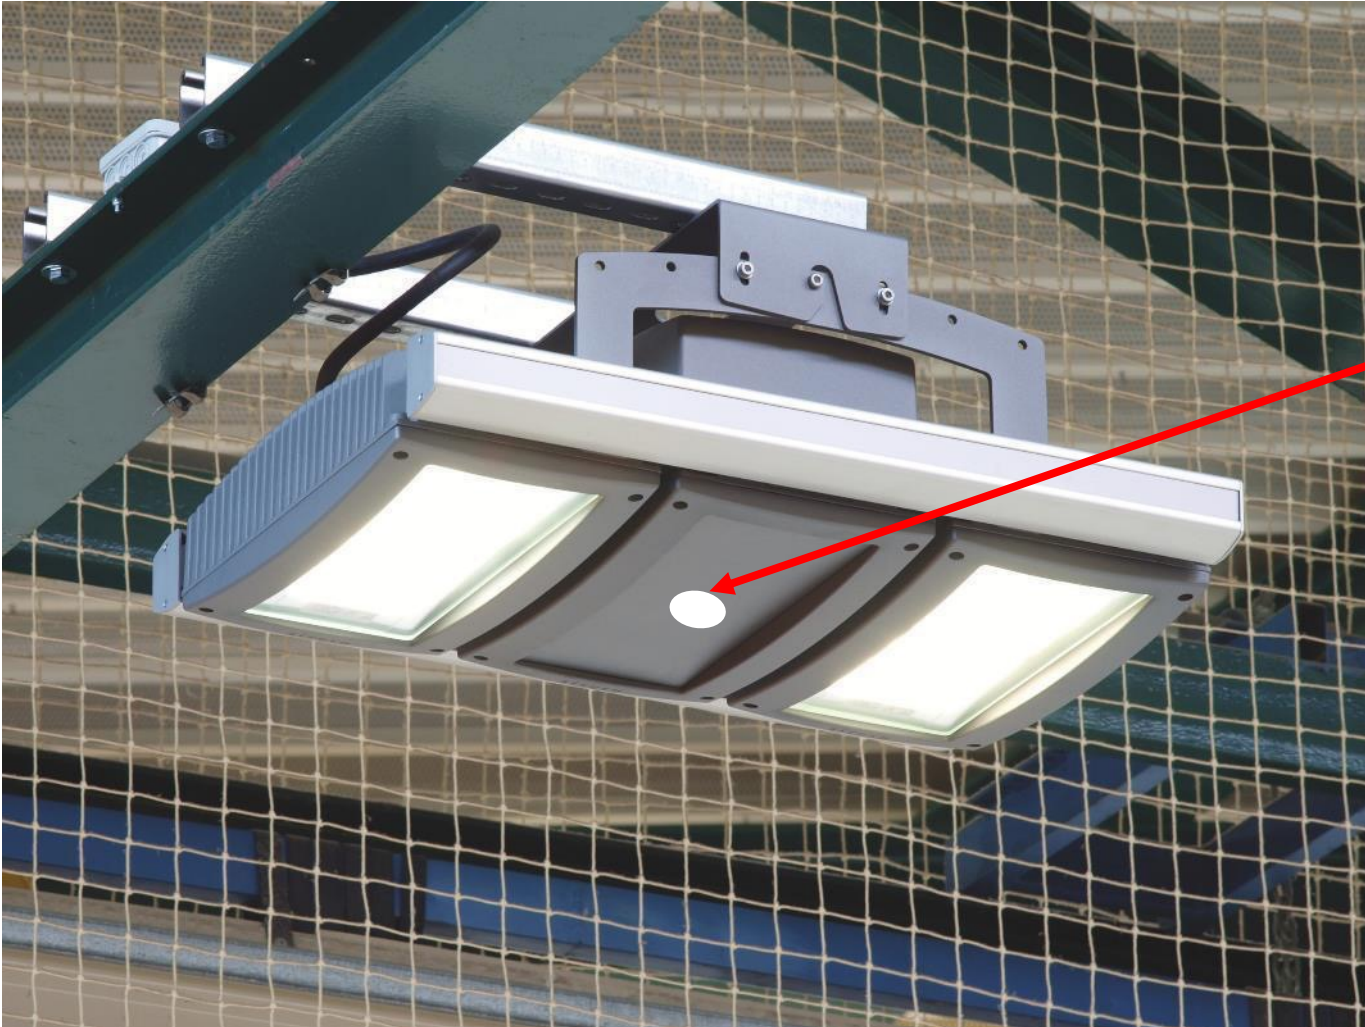

- „Works with OSRAM Hubsense®“
- Qualified Bluetooth® Mesh Wireless Sensor Module
- „Works with OSRAM DEXAL“ Driver
- Wireless Sensor Module for office luminaire
- Including Daylight and Presence/Motion Detection

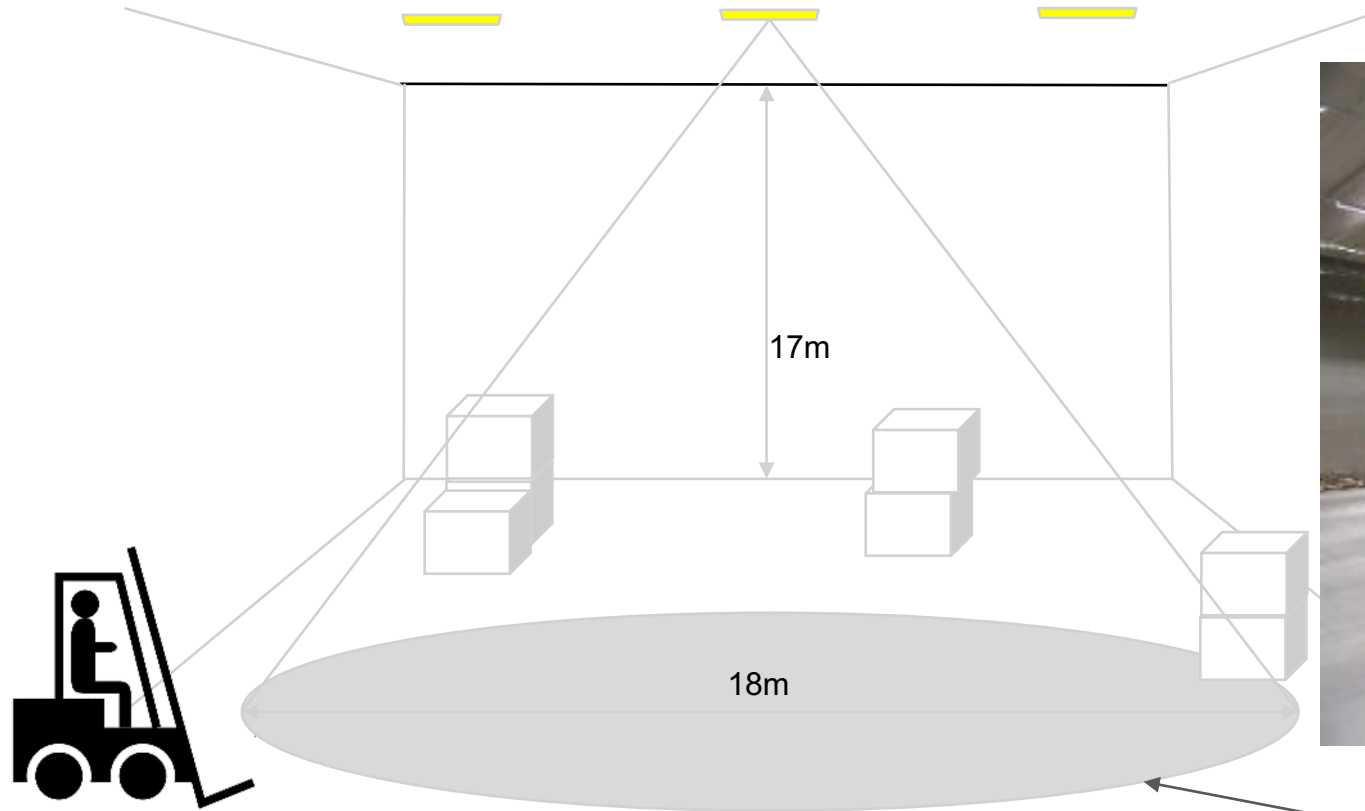

Main Features

Input Voltage	Powered by DEXAL Bus Power Supply	
Input Current	10 mA	150 mW
Max. of drivers	4 DEXAL or 4 DALI driver plus DALI Bus Power supply	
Wireless range (typ)	20 m	
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾	
EnOcean switch support	Yes, (EWSSB and EWSDB)	
Dimension	1/2" knockout, h = 36 mm (43 mm)	
Detection Range	16	10-12
Detection Height	<7 m	<12
Ambient Light Sensor	Yes	

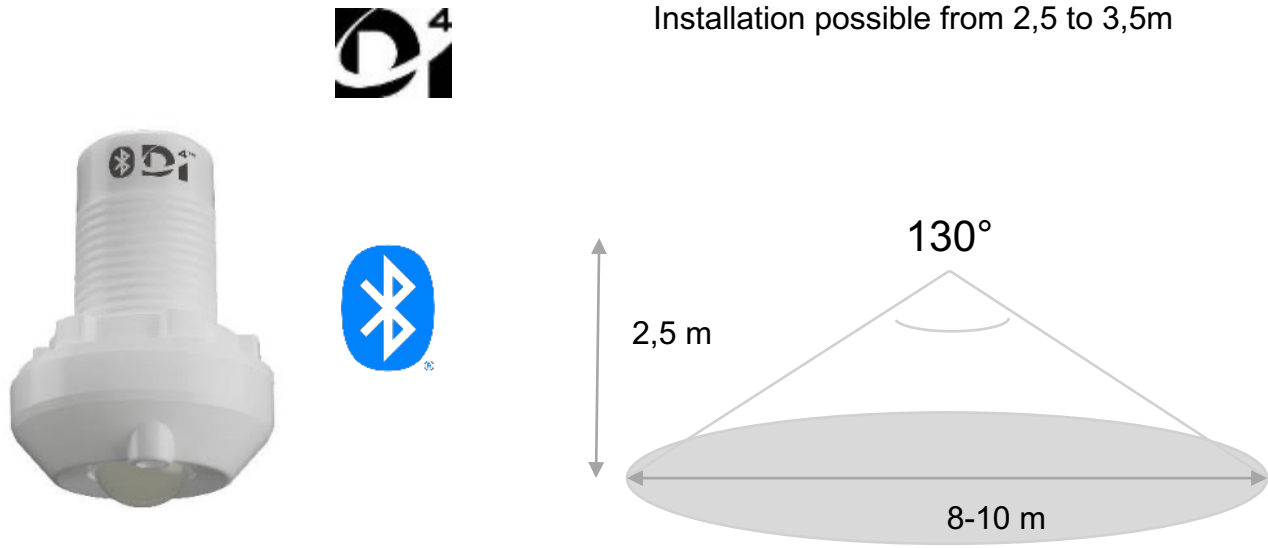

¹⁾ Technology Partner: SILVAIR

OSRAM HubSense®

QBM D4I LS/PD for Low Bay application

QBM D4I LS/PD LB R

Installation possible from 2,5 to 3,5m

IP 65

Product Features

- „Works with OSRAM Hubsense®“
- Qualified Bluetooth® Mesh Wireless Sensor Module
- „Works with OSRAM DEXAL“ Driver
- Wireless Sensor Module for office luminaire
- Including Daylight and Presence/Motion Detection

Main Features

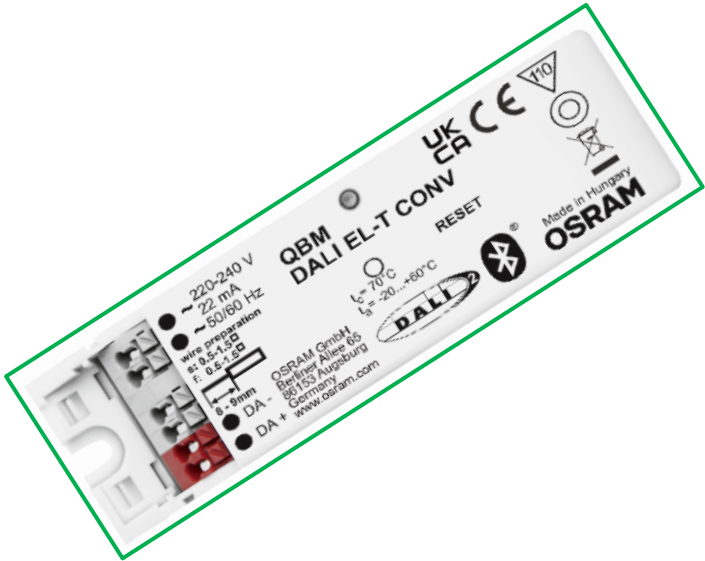

Input Voltage	Powered by DEXAL Bus Power Supply
Input Current	10 mA 150 mW
Max. of drivers	4 DEXAL or 4 DALI driver plus DALI Bus Power supply
Wireless range (typ)	10 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDB)
Dimension	1/2" knockout, h = 36 mm (43 mm)
Detection Range	Ø 8-10 m
Installation Height	< 2,5 - 3,5 m
Ambient Light Sensor	Yes

¹⁾ Technology Partner: SILVAIR

HubSense – Emergency tester

QBM DALI EL-T CONV

Standalone solution for emergency lighting testing, reporting and maintenance

Product Features

- Fits to DALI-2 Emergency luminaires
- One ecosystem for all the luminaires
- Schedule of **Functional & Duration** test
- Report of battery status and maintenance need

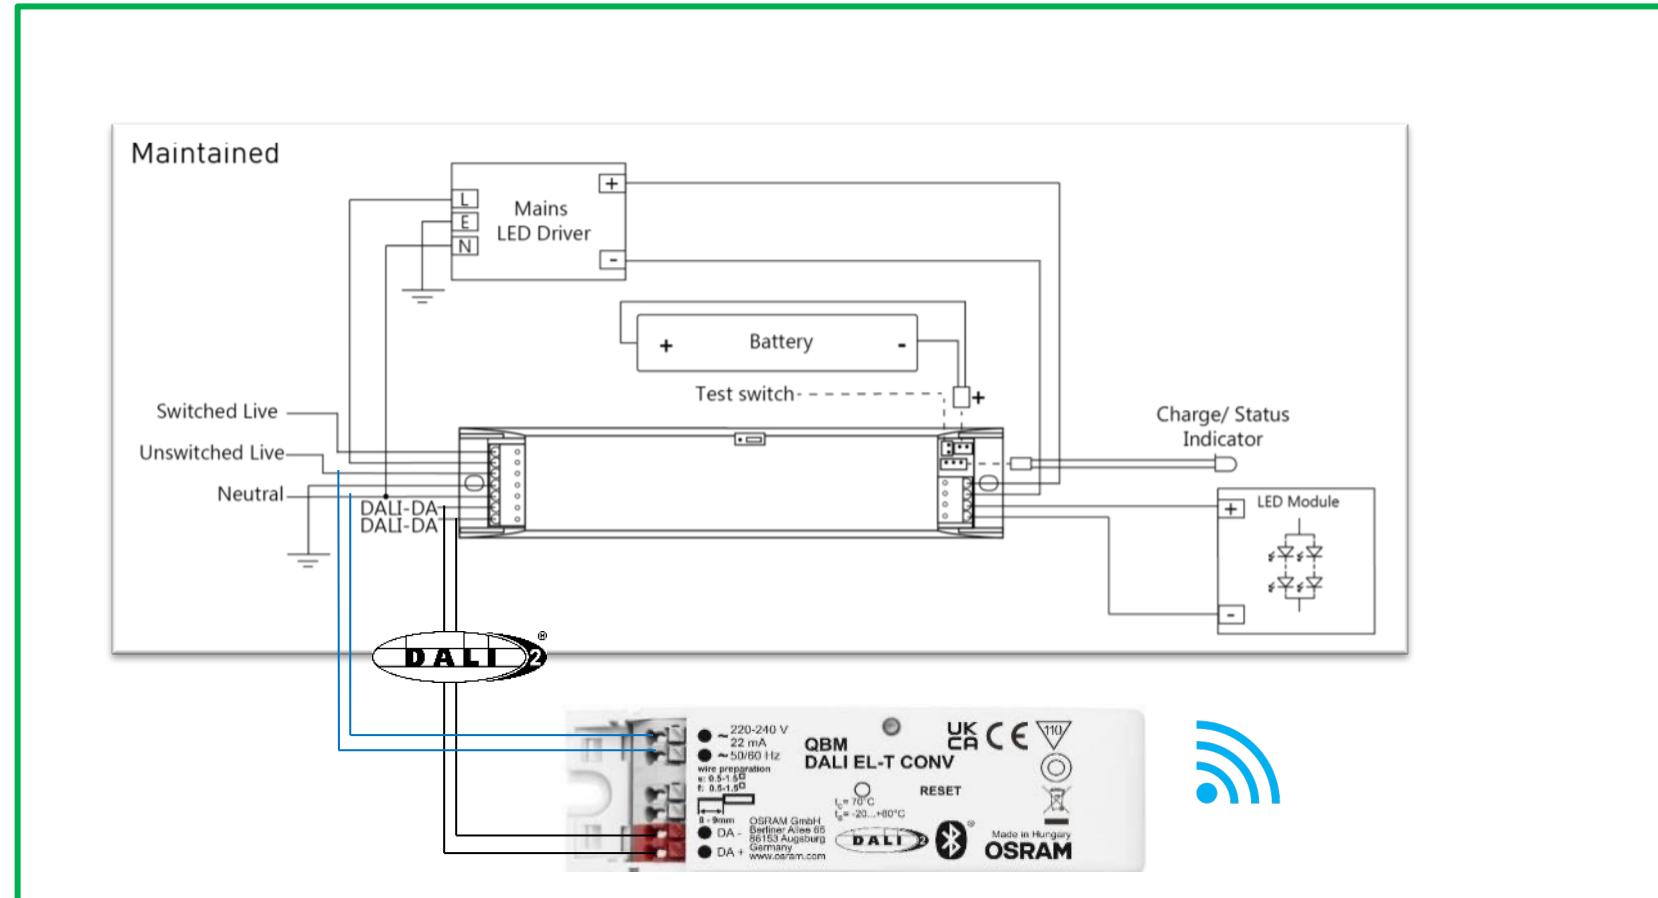

Main Features	
Input Voltage	220 – 240V
DALI Bus Current	82 mA (32 drivers plus 1 sensor)
Wireless Range (Typ)	10 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDB)
Dimming Interface	DALI, Basic isolated
Dimension	108 x 30 x 21 mm ²
Accessory	Cable Clamps
Approbation	CE

Product installation

QBM DALI Emergency Test converter

The DALI Emergency luminaire is configured by the HubSense ecosystem only.

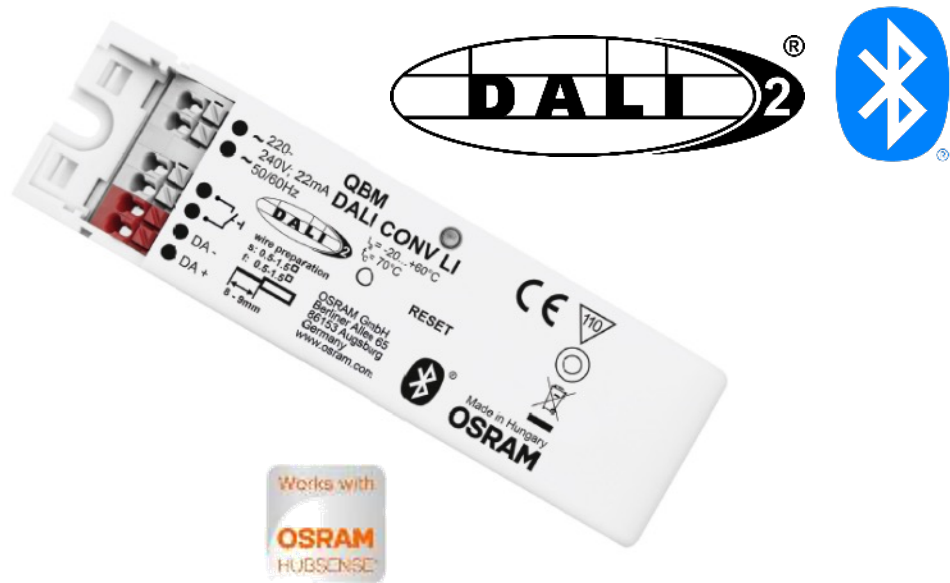

OSRAM HubSense®

QBM DALI-2 Converter with DALI Sensor support

QBM DALI CONV LI

Product Family

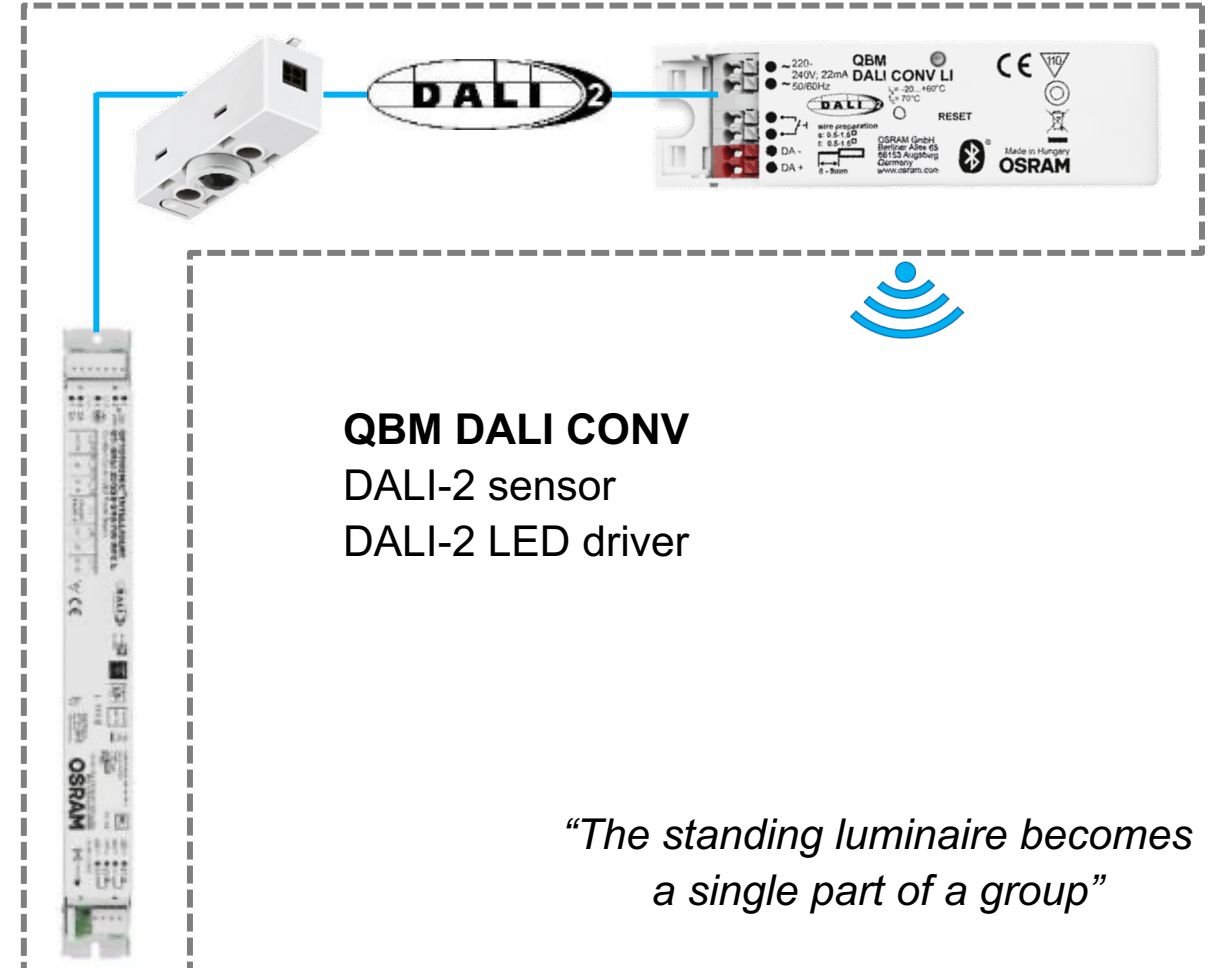

- „Works with OSRAM HubSense®“
- Qualified Bluetooth® Mesh Wireless DALI® Converter
- Control of up 32 DALI-2 drivers in broadcast mode Part -207
- 1 DALI-2 Sensor support (Part -303, Part -304)
- 1 push button support

Main Features	
Input Voltage	220 – 240V
DALI Bus Current	82 mA (32 drivers plus 1 sensor)
Wireless Range (Typ)	10 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDB)
Dimming Interface	DALI, Basic isolated
Dimension	108 x 30 x 21 mm ²
Accessory	Cable Clamps
Approbation	CE

OSRAM HubSense® SMART standing luminaires with QBM DALI CONV

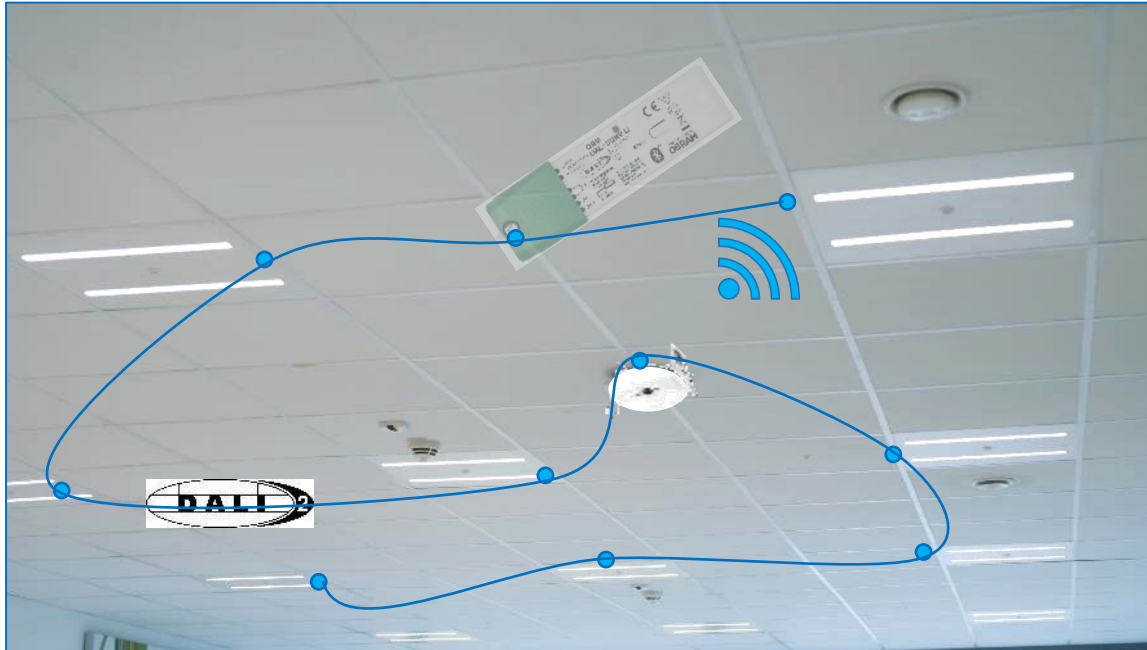

OSRAM HubSense® SMART pendant luminaires with QBM DALI CONV

QBM DALI CONV
DALI-2 sensor
DALI-2 LED driver

OSRAM HubSense® SMART ceiling with QBM DALI CONV

Behind the false ceiling it would be necessary to install just one **QBM DALI CONV** can be connected via DALI to -
all the DALI-2 Luminaires (up to 32)
- one DALI-2 sensors

Already existing DALI infrastructure, can be reused!

Just connect the **QBM DALI CONV** and control it by your **HubSense mobile APP**

DALI LS/PD CI

Linear LED Drivers – OPTOTRONIC OT Wi non isolated

OT Wi... D NFC L

Shaping the future – making wireless installations possible

Type	Dimensions
35W	280*30*21
75W	
100W	

Type	Range I	Range V	Phys. Min DIM
35W	75 – 400mA	54 – 240V	1mA
75W	250 – 750mA		1mA
100W	125 – 750mA		1mA

Family / System

- Non isolated 35 / 75 / 100W linear drivers
- Available as qualified Bluetooth mesh version
- Tuner4TRONIC programming
- Perfect match to HUBSENSE system

Highlights

- Wireless capability integrated
 - Bluetooth SIG
- QBM: Luminaire Info & Monitoring Data
- Up to 10m coverage inside metal luminaires

Benefits

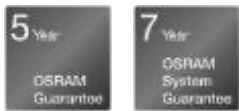

- 1...100% dimming
- Fully digital programmable by NFC incl. Box Programming
- Very wide operating window
- Very low ripple

Compact LED Drivers – OPTOTRONIC Intelligent NFC LP OT Wi 15/25/40 NFC QBM LP (I)

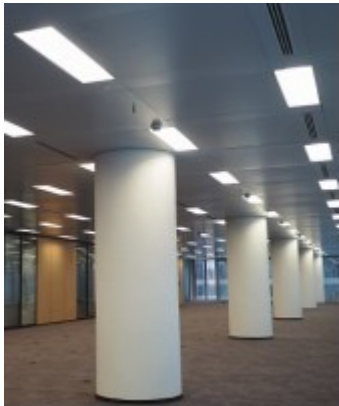

Miniaturization – wireless functionality – ready for IoT

Family / System

- Compact SELV product family, 15/25/40W
- Available as qualified Bluetooth mesh version
- LP: low profile; I: independent
- Tuner4TRONIC programming
- Perfect match to HUBSENSE system

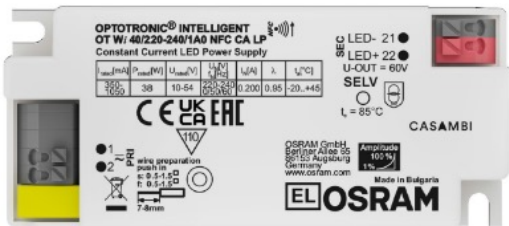

Highlights

- Wireless communication integrated
- QBM: Luminaire Info & Monitoring Data in preparation

Benefits

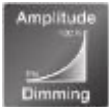

- 1...100% amplitude dimming
- Fully digital programmable by NFC incl. Box Programming
- Wide operating window

Type	Dimensions LP	Dimensions LP I
15W	97x43x22	150x43x22

40W		

Type	Range I	Range V
15W	150 – 1050mA	10 – 54V
25W	180 – 700mA	
40W	350 – 1050mA	

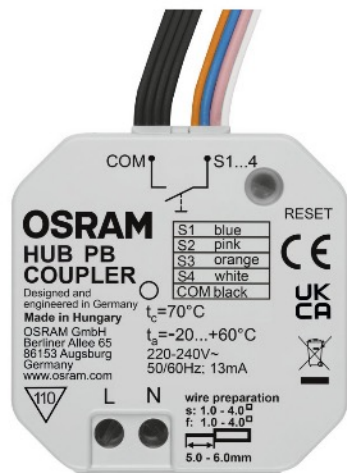

HubSense®

Push Button Coupler, Mains powered

HUB PB Coupler

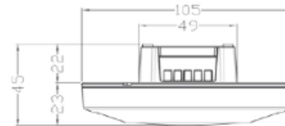

Product Family

- „Works with OSRAM Hubsense®“
- Push Button Coupler
- Enable free selection of switch frames
- Support up to 4 potential free push buttons
- Designed for mounting in deep flush device boxes

Main Features

Input Voltage	220 – 240 Vac
Max. Input Current	13 mA
Wireless range (typ)	10 m
Wireless Protocol	Bluetooth®
EnOcean switch support	No
Dimension	48 x 49 x 22 mm
System Wattage	0,5 W
Supported push buttons	4
Wire length	250 mm
Reset	Yes

QBM 220-240 LS/PD CI

Product Family

- „Works with OSRAM Hubsense®“
- Qualified Bluetooth® Mesh Wireless Sensor Module
- Wireless Sensor Module for Office Luminaire
- Daylight and Occupancy Detection
- Support up to 8 DALI OSRAM LED Driver (Part -207)
- Flush box included

Main Features

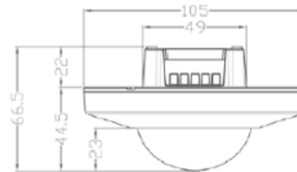

Input Voltage	220 – 240 Vac
Max. Input Current	14 mA
Wireless range (typ)	10 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDB)
Dimension	Ø=105 mm , h = 45 mm
Occupancy Range	Ø 4 m minor movement @ 3 m height Ø 8 m major movement @ 3 m height
Occupancy Height	< 4 m
Ambient Light Sensor	Yes, 5 – 1400 lux

**) Preliminary, In planning*

¹⁾ Technology Partner: SILVAIR

QBM 220-240 LS/PD HB

Product Family

- „Works with OSRAM Hubsense®“
- Qualified Bluetooth® Mesh Wireless Sensor Module
- Wireless Sensor Module for Office Luminaire
- Daylight and Occupancy Detection
- Support up to 8 DALI OSRAM LED Driver (Part -207)
- Recessed mounting box included

Main Features

Input Voltage	220 – 240 Vac
Max. Input Current	14 mA
Wireless range (typ)	15 m
Wireless Protocol	Qualified Bluetooth® Mesh by SILVAIR ¹⁾
EnOcean switch support	Yes, (EWSSB and EWSDDB)
Dimension	Ø=105 mm , h = 66.5 mm
Occupancy Range	Ø 22 m major movement @ 14 m height
Occupancy Height	< 14 m
Ambient Light Sensor	Yes, 5 – 1400 lux

*) Preliminary, In planning
